

**Amendments to the Claims:**

This listing of claims replaces all prior versions and listings of claims in the application.

**Listing of Claims:**

Claim 1 (Currently Amended): A digital camera comprising:

an attacher to be attached with a recording medium ~~forming~~ in which a plurality of folders for managing a plurality of image files are formed;

a first pointer to point at any one of ~~said~~ the plurality of folders formed in said recording medium as a record destination folder;

a second pointer to point at any one of ~~said~~ the plurality of folders formed in said recording medium as a reproducing destination folder;

~~a picture taker to take a picture of~~ an imaging device for imaging a subject ~~in response to a picture taking instruction~~;

a ~~storer~~ writer for ~~storing~~ writing a new image file including image data of ~~the~~ a subject image which is imaged by said imaging device to said the record destination folder when a recording instruction is issued; ~~and~~

a first changer to change a point destination of said second pointer to a point destination of said first pointer in response to the recording instruction; and

a reproducer for reproducing an image file stored in the reproducing destination folder when a reproducing instruction is issued.

Claim 2 (Currently Amended): A digital camera according to claim 1, further comprising a folder ~~No.~~ number assigner for assigning different folder ~~Nos.~~ numbers respectively to ~~said~~

the folders formed in said recording medium, wherein said first pointer holds a folder ~~No.~~ number of ~~said the~~ record destination folder, said second pointer ~~holding~~ holds a folder ~~No.~~ number of ~~said the~~ reproducing destination folder, and said first changer ~~setting-a~~ sets the folder ~~No.~~ number held by said first pointer to said second pointer.

Claim 3 (Currently Amended): A digital camera according to claim 1, further comprising a file ~~No.~~ number assigner for assigning file ~~Nos.~~ numbers to be possibly overlapped between ~~said the~~ folders to ~~said the~~ image files; and a third pointer ~~having for holding~~ holding a file ~~No.~~ number of ~~a~~ an image file to be reproduced, wherein ~~said the~~ image file to be reproduced is specified by said second pointer and said third pointer.

Claim 4 (Currently Amended): A digital camera according to claim 3, further comprising a second changer to change ~~said the~~ file ~~No.~~ number held by said third pointer to a file ~~No.~~ number of ~~said the~~ new image file based on the ~~picture-taking~~ recording instruction.

Claim 5 (Currently Amended): A digital camera according to claim 1, further comprising a selector for selecting an arbitrary folder as ~~said the~~ reproducing destination folder; and a third changer for changing only the pointing destination of said second pointer among said first pointer and said second pointers pointer to a folder selected by said selector.
